

# al goes dental /2/ big strong choppers

*Peg and Al use flashlights to examine Kelly's and Bud's teeth. The doorbell rings. It's the neighbor couple, Marcy and Steve.*

**PEGGY:** Come in.

**MARCY:** What are you doing?

**PEGGY:** Oh, giving the kids their dental check-ups. Excellent, Bud, as usual. Ok kids, go on upstairs and we'll forge your dental forms in the morning.

**KELLY:** Well, that wasn't so bad.

**BUD:** Yeah, thank God we didn't need tetanus \_\_\_\_\_ .

**STEVE:** Excuse me, but doesn't anybody know that this is against the law?

**AL:** \_\_\_\_\_ is dressing up a chicken and \_\_\_\_\_ it your wife.

**MARCY:** I am not a chicken. Why does he \_\_\_\_\_ calling me a chicken?

**PEGGY:** Look guys, I don't \_\_\_\_\_ to be rude, but we've got some x-rays to sketch.

**MARCY:** This is a \_\_\_\_\_. You are robbing your children of one of life's great experiences. I love to go to the dentist. A man in white, standing over me while I'm \_\_\_\_\_ helpless in a chair. And just when I think I can't \_\_\_\_\_ it anymore he says, "Good girl, Marcy. You can spit now."

**PEGGY:** Al, I want to go to the dentist.

**MARCY:** Well, you should. Everyone should \_\_\_\_\_ their dentist at least twice a month... I mean, year. And you know what? I haven't \_\_\_\_\_ a cavity since I was ten years old.

**AL:** So \_\_\_\_\_ ? I haven't had a cavity my whole life and I've never been \_\_\_\_\_ the dentist.

**STEVE:** And still you have that delightful breath. How do you know you've never had a cavity?

**AL:** History, tradition. Bundy men were always be known for one thing. Well, \_\_\_\_\_ , we were known for two things. One, always having the \_\_\_\_\_ for finding just the right woman. And teeth. Big, strong choppers. Marcy, have a look in here, go \_\_\_\_\_. Go on, just check the teeth, will you?

**MARCY:** Well, the green one looks pretty good, and some might be \_\_\_\_\_ by that black one, but the one that's actually bleeding could be a problem... Al, you should go to the dentist.

**AL:** No need. If my teeth don't hurt, there's nothing wrong \_\_\_\_\_ them... and my teeth don't hurt.
