

those of you who are not **familiar with** these classes
may be wondering what **to expect**
so **why don't I** explain this before we **get started**
suppose you **took** a **different** course
you **would have to** buy **useless** textbooks
in class you're **supposed to** just sit and listen
and **write down whatever** the teachers says
everyone keeps looking at their **watch**
thinking **I've never been this bored** before
but they **make you think that's how it's done**
that's ok, **as long as** you **don't actually have to** speak
that's when it turns out
what a waste of time this **has been**
I mean, you'll **do pretty well** on written tests
but that's just **not enough**, if you ask me
I **wonder why** no one has **pointed this out**
what's the point of learning things you can't use?
ok, **there's not going to be** any of that here
it **may take** some time **for you to** really **get going**
but **take my word for it**, it's **definitely worth it**
