

emily's back ... bee's knees english

I can't believe how long **it's been**
it must be **at least** six years **since we last met**
the last time I was here I was **much** younger
you **haven't changed a bit, though**
neither have you. if anything, you look younger

so what's new **with** you **anyway?**
a lot, actually, you **want me to tell** you now?
absolutely, I can't wait to hear it
ok, **why don't I** tell you about my new job first?
go ahead, I've been meaning to ask you **about** that
