

There's **a Miss** Geller here **to see** you. --
I've been expecting her, **send her in.**

What **the hell** is this? **Seriously,**
what is this **supposed to** mean?

What's the deal? Is this a **bribe** that you're
giving me **so that** I'll go on a date with you? **Is**
this how you **get** girls to go out with you?

Look, if I hadn't **left** you that tip, you **wouldn't**
have come here, we **wouldn't be having** this
argument, and **there wouldn't be** this heat
between us. That was **the whole point,** you see.

That was why I left you that tip. **To make** you
come over here all **upset,** like girlfriends **do.**

You **used to be** the chef, and I was the
customer, and now we're a couple that **fights.**

I didn't know this **for sure** before but now **I**
do. You're a **loon.** I **don't see how** you
could think this **was going to work out.**

I think you're **amazing.** I think we would
make a great couple. **What do you say?**

I would hate to encourage this kind of behaviour.

One meal! That's **all I'm asking for.** If you don't **have**
a good time, I give you ten **grand,** we **call it even.**

May I **have a word with** you?
We've been getting reports of some
very angry behavior **on your part.**
Threatening letters, **refusal to**
meet deadlines, apparently
people now **call** you **mental.**

Are you saying you ate my sandwich? – I
didn't mean to, it was a simple mistake. It
could have happened to anyone.

Oh really? Did you **confuse it with** your own
sandwich? Did you **mistake it for** a piece of old bread?

Do you maybe **remember seeing** a
note on top of it? -- **There may have**
been a note **of some kind.** – Didn't the
note **say** it was my sandwich?!

Now **calm down. Come look** in my office,
some of it **may still be** in **the trash.**

I **would have burst** if I'd **eaten** all of
it so I **had to** throw most of it away.

You threw my sandwich away?! **The one** that I
was looking forward to eating so much?

Quick, what's this book **about**? -- **You mean** you didn't read this **one either**?! – I **was gonna**, but I **accidentally ended up reading** something else.

You **should have read** it **yourself**. – Come on! Don't be **such a goodie-goodie!**

First of all, you'd think she's a woman, but **in fact** she's a robot. **No kidding**, this book was years **ahead of** its time.

Sorry **I'm late**. Let's **get started**. So, what did everybody **think about** Jane Eyre?

Rachel and I were just **discussing it** and she had some very interesting **insights**.

Go ahead. I **wonder** what you **have to say** about the book.

What **struck** me most **when reading** Jane Eyre was how the book was so **ahead of** its time.

I **loved it when** you started **comparing** Jane Eyre to Robocop. – How can you **call** that funny?

That was so **embarrassing!** I **was wondering** why everyone **was giving me those strange looks** but I just **figured** they **were impressed with** my insights.

I **made a total ass of myself.** I **can't believe** you let me **go on and on** like that. – I **snapped!** You **weren't taking** the class **seriously.**

What is **the big deal?** I thought we **were doing** this to **have a good time.** – I **did want** to have a good time but I also wanted to learn.

I always **hear people talk about what** they learned in high school and I **never even** went to high school.

I **wish I knew** you **actually** wanted to learn. I **wouldn't have goofed off** so much.

The handy man is gonna be retiring next week and **everyone** is **kicking in** a hundred bucks as a **thank you** for all the hard work he **has put in over the years.**

Would you like to pay in cash or **would you rather give** me a check? You can **slip** it under my door **when you're walking** by later today.

It's not that, it's just that this is my first day here...

The guy's worked here for 25 years. – Yes, but **I've lived** here for 25 minutes.

I've never **even** met him. **To me** he's just **a guy I have never met** who **happened to be** a handy man in a building **that** I'm going to live in **for a while.**

Can you believe that guy?

Steve told everyone that I was a **cheapskate**, and now **the whole** building hates me! I'm gonna **throw** a party. That's **right**. I'm gonna **sit them down** and **explain to them** I am not a **cheap** guy! I'm just a guy who **stands up for what** he believes in.

If you **want your neighbors to** like you, **why don't you just pay** the hundred bucks? The party's gonna cost you **way more than that**.

It **doesn't matter!** It's **about** my principles!

I **wouldn't mind paying twice as much** if it **was** for someone I **care about**. **That's what** it's about.

I thought it was about **your neighbors liking** you. – Oh, they'll like me. **Once** they come to my **awesome** party!
