

special attention It **sure has been** nice to get all this special attention these last couple of weeks. I have to admit, **I'd pretty much been cut off** from society for **many** years, but now **everyone seems to** know my name. And **even though** I've decided to **keep a low profile** here in this New Mexico motel, it sure is nice to feel so **wanted** for the murder of three local children.

fulgencio I guess I **have** Fulgencio **to thank for patching up** my marriage and for giving me the first night out with my husband **in ages**. Unfortunately, it wasn't all **smooth sailing**. Rick **kept calling** Fulgencio "Tinkerbelle," and that really made me mad. He also **kept insisting** that Fulgencio is gay, and **even though** I told him that was **ridiculous**, he **wouldn't let up**.

saving the seeds I **saved** all my seeds for two weeks, filled some cans with **dirt** and planted them in my **spare** room. Nothing happened. **Since I don't know the first thing about growing** weed, I finally decided to try to get a roommate **to** fill the room. Now, I'm **a bit of a loner**, but when you can make \$100 a month **by letting** someone sleep in your unused **closet**, you start having some **second thoughts** .

donald trump When Donald Trump **and** Marla broke up last year there was a lot of **gossip** in the newspapers **about how he and Ivana might get back together**. It was probably **wishful thinking**.

corporate life It wasn't simply Flier's desire to reconnect with his family **that made him** decide to **give up** the **hustle and bustle** of corporate life. It was also the little things **he'd been missing out on by spending** so much time **away from home**.
