

the key or not the key / easy ... bee's knees english

**how come** you never **let me come** in?  
if someone **saw you come** in  
**there would be** a lot of trouble  
I want **you to be gone** now  
don't **wait for me to** walk in  
and please, **do me a favor**  
**stay away from** me **from now on**

-----

this key is **yours**, I **had it made**  
**so that** you **don't have to** use **mine**  
I **should have done** this **a long time ago**  
but I was **worried about getting in trouble**  
**I'm not allowed to** let someone stay here  
so **I'd rather you didn't** talk about it much
