

I wonder why we lost touch ... keywords ... bee's knees english

**write** why stop, year friends...

all night **phone**, every day?

before **work** chat, say leave work

no want... ask **back** night, no so angry

friend: **call** if home, no talk week

second come, **cousin**, great! forgive no come!

night and dinner? no: **boyfriend**

-----

think **crush**, come: always look touch

one call ask, my **name** when friend's

but now **ok**, fall laugh, „bye“, but **stop**, year talk

**store** week, **shock**, seem avoid

try no look, always **away** no eyes

but wave, comment, **confuse**, miss?
