

UH revisited (2-2) an enjoyable rut

It's scary to realize that most likely they won't take a real break from work until they _____. I mean, you hear them complain about _____ on empty and being at the end of their _____, but they won't stop to consider giving up their vacations in the Caribbean or their luxury cars. I wonder which is more freakish, _____ with what you're familiar with or pushing _____ even if this means missing out on all the fun you could and should have.

Still, even in Czechia things do seem to be changing slowly. Some of my friends who I'd never in a million years expect to get a real job, have done just that and become responsible adults who _____ themselves rather than _____ off their parents. Their parents, who grew up under Communism, have for the most part had a hard time _____ to the big changes that have been happening around them. I guess the free market economy _____ some _____ used to after all these years. But I'm told that some of the parents have _____ their own businesses, _____ up new skills or _____ ambitious companies, which is certainly _____.
