

**one** science research hormone, think stupid » old article, but no stop again  
» what always: south, me and she, map in box, turn say “next”, question but  
sigh like stupid » turn map, ring, lose place, “left?”, long past » no count  
20 yrs, frustrate 'cos sons, competent male » ask “hand map let?” afraid  
'cos argue, “child better?” no want, again **two** so same, two silent, now  
science so maybe courage: “hormone, lousy like me breastfeed, map to George  
now?” » hormones why wife better? five tasks, me never, phone and bath,  
future excuse? » dates, 30 people, godson! ok » truth no good as man: cars,  
PCs, plumb » but sons, soon jobs, idea start now?
